STREET OPENING: \$1000.00 DEPOSIT

Roadway Restoration Requirements -For Excavations other than Sewers-

Please review and check to confirm understanding:

- Premium backfill in the roadway to bottom elevation of existing pavement unless existing pavement thickness is less than 10": #57's preferred dumped and placed in lieu of conforming to section 901.06b of Bay Village Codified Ordinances, but others accepted upon request.
- If removing section of curb, new curb needs to have two pins/dowels on each existing end and rebar tied in between
- Pavement repair: On asphalt street, 8" of Class C concrete capped with 2" of asphalt topping mix—tack coat must be applied before asphalt topping

Inspection requirements:

- Pre-pour inspection
- Pre-asphalt inspection

Please call 440-871-1221 to schedule inspections

I understand and agree to the above conditions. Fees incurred by the Bay Village Service Department will be deducted from your deposit.
