Dear Residents and Business Owners,

### **CONSTRUCTION THIS SUMMER**

Three significant road and bridge projects in the city will affect vehicle traffic this year. The Ohio Department of Transportation (ODOT) will resurface Lake Road from the Rocky River border to Columbia Road and replace the Ashton Lane bridge. Cuyahoga County will resurface Wolf Road from Clague Road to Sutcliffe Drive.

#### • **WOLF ROAD**

Cuyahoga County will resurface Wolf Road from Clague Road to just east of Cahoon Road and from Cahoon Road west to Sutcliffe. Dedicated bike lanes will be included on each side of the roadway from Dover Center to Clague Roads by widening Wolf Road on the south side, diagram below. Sidewalks will not be impacted except where crosswalk ramps need to be updated to current ADA standards.

While Cuyahoga County anticipated that this project would be completed over two years, the contract was recently awarded to a firm that has the resources to complete it in 2022. Construction will begin around June 6 and last until the end of November. To achieve this timeline, **one-way eastbound traffic** will be maintained for the duration of the construction project from Dover Center Road to Clague Road. Westbound Wolf Road traffic will be detoured onto Lake Road. There will be temporary detours posted for short periods when construction is occurring in front of the Bay Middle School and Bay Square commercial area.

Wolf Road residents will be notified if/when your driveway access will be impacted. If a portion of your driveway apron is removed during the construction process, it will be replaced with the same material that was removed.

As part of this project, Clague Road will be restriped from Wolf Road to Lake Road to include bike lanes on both sides.

These changes were recommended in the Bay Village Master Plan completed with the Cuyahoga County Planning Commission in 2016.

Improvements to the Wolf/Cahoon Road intersection are covered under a separate contract as federal funds were received for this portion of roadway. Construction for this intersection will take place in 2023.

#### • **LAKE ROAD**

The Ohio Department of Transportation will repave Lake Road from the Rocky River border to Columbia Road. The project is expected to start in early July (after Independence Day) and be completed by Labor Day. Traffic will be maintained eastbound and westbound with flagging. Please allow extra travel time for delays.

**-OVER-**

• **ASHTON LANE BRIDGE**

The Ashton Lane bridge across Porter Creek is scheduled for replacement beginning on June 6 with completion estimated in early November. Ashton Lane will be closed for 90 days beginning on June 6. Traffic will be detoured to Bassett, Wolf, and Bradley as signed.

**CITY SERVICES**

Trash, recycling, bulk pickup, brush, and leaf collection services for all affected residents will be maintained during construction. Place your trash and recycling cans and other items near the street as you currently do, or as close as possible without entering the construction area.

**CONSTRUCTION UPDATES**

Updates on all these projects will be posted on the city website, linked in the home page spotlight and the Service Department page. You may also contact the Service Department at 440-871-1221 or via email at [service@cityofbayvillage.com](mailto:service@cityofbayvillage.com)
